Report of Superintendent of Schools

The following annual report is respectfully submitted to the members of the School Board and Citizens of Sumner:

While not all of our schools have attained that high degree of success we like to see, I think taken as a whole, we have had a very successful school year.

Teachers have taken a great interest in their work and in nearly all cases gained the good will of both pupils and parents.

Five teachers have held their positions the entire year. By so doing more satisfactory work has been accomplished than would otherwise have been, had we been obliged to change every term.

I consider the Town fortunate in having the services of teachers who have had so much experience in teaching, and are so well fitted to fill their positions. We have had an excellent attendance the past year; 9 pupils have not been absent for the entire year, and a much larger number only 1 or 2 days, and then on account of illness.

It is pleasing to note that pupils are learning to take pride in keeping their books neat and clean. New books placed in some of our schools, at the beginning of the year, show very little wear.

In closing I wish to thank the members of the School Board for their support, the parents for their many words of appreciation, the citizens for the many courtesies I have received, and the teachers and pupils for their help in making my work for the past year pleasant.

JENNIE H. BONNEY,

Superintendent of Schools.
